

International Executive Master of Management (IEMM)

Companies that prioritize innovation, produce winning products and services year after year and change the game in their sectors. The ability to adapt and be multifunctional will enable individuals to innovate amid uncertainty and ambiguity.

This International Executive Master of Management will enable students to anticipate market needs and grow the organization's capacity to innovate.

As an executive or entrepreneur, you will master the fundamentals of management alongside other experienced professionals. You will also develop strategic vision and management capacity required to excel in practical decision making.

By transforming current managers into innovative change agent managers, this program will enable you to drive strategic innovation resulting in high performance. Learn to build, lead and sustain an innovative organization and achieve high performance throughout the value chain. Develop new toolkits and theoretical frameworks to help your company gain competitive advantage and create a new market space.

Our Unique Features:

- **Classes every two weeks (biweekly), modular, designed for Executives**
- **Taught by visiting International faculty members and experienced industry experts**
- **Spend a leadership week at one of the best universities in the world**
